CIMUN 2019: DAY 3

PUBLISHED ON SEPTEMBER 22, 2019

W.H.O. CALLS FOR HEALTHCARE IN REFUGEE CAMPS

After a very productive final day in the World Health Organization, the delegates passed a draft resolution calling for improvement of healthcare in refugee camps. After a day of fruitful debate, there were two unmoderated caucuses that ended in a draft resolution.

The draft resolution recommended sanitization of refugee camps and overall improvement by the year 2030. The WHO would give the countries incentive to improve all the refugee camps. There would also be an increase in the number of translators to avoid cultural barriers. The WHO also sanctioned the usage of psychiatrists to treat diseases like PTSD in refugees. Training will be given to these psychiatrists by WHO-recommended specialists, and the psychiatrists would meet together before action would be taken.

With that, both agendas of the committee were resolved. The chairs handled the delegates, answered their doubts, and became their friends in three days. Their informalities, though numerous, cannot be reprimanded, because they have resolved both the agendas set. The delegates of the World Health Organization should be proud of the excellent work they're putting in.

THE CIMUN EXPOSÉ

UNHRC RESOLUTIONS!

The committee started today's proceedings with the draft resolution to its agenda. It witnessed two sides, namely Afghanistan, Nepal, USA and Brazil Burkina Faso and Qatar. Our Secretary General came in as a guest delegate by representing the United States of America. Both the draft resolutions were made and had similar points and also similar grammatical and formatting errors.

There were multiple dual and group arguments and the Crisis Manager double delegated with the delegate of Brazil. The arguments stretched for so long because the draft resolution had many changes to be made. Finally, when all was quiet, the committee came to the amendments for the draft resolutions and with that there were 5 amendments which were passed. Most of the amendments were for the draft resolution of the delegate of Afghanistan.

Once the draft resolution of the delegate of Afghanistan looked favorable, the delegates voted for the "Draft Resolution 69" to be implemented in the committee with context to its respected agenda. With this, the agenda regarding the safety of journalists was finally resolved and completed.

२७ वर्षों बाद अयोध्या वासियों को मिला चैन !

२ दिनों की कट्टर बहस के बाद, अयोध्या विवादित जन्मभूमी को लेकर हिन्दू-मुसलमान समुदाई में लगभग ३ दशकों से जो संघर्ष जारी था, आज २२ सितम्बर, २०१९ की सुबह, उच्चतम न्यायालय के मुख्य न्यायाधीश माननीय रंजन गोगोई एवं न्यायालय की पंचायत द्वारा फैसला सुनाकर समाप्त हुआ।

दोनों दलों के पक्षधर चर्चा के पहले दिन से एक-दूसरे को दोषित ठहरा रहे थे। तीन दिनों तक चलने वाली यह बहस किसी शांतिपूर्ण अंत तक नहीं पहुंचती अगर स्वयं मुख्य न्यायाधीश और सह-अध्यक्ष ने अपने विचार इस विवाद पर प्रकट कर समिति को एक नया रास्ता न दिखाया होता। हालांकि दोनों दलों के न्यायाधीशों ने कई उपाय निकालने की कोशिश की परन्तु किसी न किसी खामियों की वजह से उन्हें टाल दिया गया।

THE CIMUN EXPOSÉ

वैसे तो यह विवाद पहले भी समाप्त हो सकता था परन्तु हिन्दू पक्षधर ट्रीटी साइन करने के एक दिन पूर्व ट्रीटी की शर्तों को न मानकर इस विवाद को क्राइसिस का रूप दे दिया जिससे विवाद की परिस्थिति और बिगड़ गयी। इस मुसीबत से बचने का पक्षधरों द्वारा कोई उपाय न मिलते हुए मुख्य न्यायाधीश रंजन गोगोई ने अपने सह अध्यक्ष व जूरी सदस्यों की सहायता लेने का फैसला लिया। घंटों के विचार-विमर्श के बाद जूरी ने मुसलामानों की मांगों के मुताबिक उन्हें तीन-चौथाई एकड़ ज़मीन और हिन्दू समुदाई को बाकी २ एकड़ ज़मीन देने का फैसला लिया। और तो और नुक्सान-भरपाई के अनुसार अयोध्या के ३७ मस्जिदों की मरम्मत जल्द से जल्द पूरी की जायेगी।

एक बार फिर अयोध्या नगर-वासी चैन की नींद सो पाएंगे। अब किसी भी नागरिक को अकेले राह चलते असुरक्षित होने का डर नहीं लगेगा और न त्योहारों में पुलिस को रक्षा देने की ज़रूरत पड़ेगी।

WORKING PAPER - SUNGLASSES

On day 3 at CIMUN, in the World Intellectual Property Organization, the delegates of India and UAE presented a working paper called 'Sunglasses' that was passed by the committee. Some of the points covered in their working paper include: spreading awareness through schools and colleges regarding the protection of intellectual work, identification for registration on social media, legalities and implication of penalties depending on the size of the crime. They also spoke about a safety roof that should be given to owners if it is his/her own content - this would solve false copyright claims. The final point was that copyright owners must be given certain rights and compensation, in which they said that the copyright owners should have the rights to get the money the copycat who copied their work got.

Later, they moved into a moderated caucus discussing the working paper in which the delegate of Australia stated "the working paper is good but we need some changes" and sat down without mentioning the changes. Then they had a 3 V 1 where it was the delegates of Luxembourg, UAE and India against the delegate of Canada. The delegate of Canada was against the motion and the delegates of Luxembourg, UAE and India were for the working paper. The delegate of Canada said in his speech "It is not necessary for us to discuss Sunglasses when you have put a shade on the whole agenda." A voting for the agenda was held. The agenda passed.

JOUR(NIL)LIST!!!

The United Nations Security Council, WHICH merged with the United Nations Human Resource Council, failed at drafting a resolution as they were unable to resolve the crises - 'Journalist Mustafa Nayyem was in Russia to seek the catastrophic conditions between Russia and Ukraine. He found some vital information which was against Ukraine. He released an article which was half written it said Russia is planning a nuclear war against Ukraine. He has been missing since the release of the article. On 17th September he was found dead in Russia with a note which said "Journalists from Ukraine would be in grave danger". People couldn't find the full article.

The debates of the merged 22 delegates were all in vain. The 22 delegates were split into two groups of 11 each which in itself is clearly evident that the opinions were pitted equally. Hence the agenda could not be solved and the agenda A - 'Ukraine Crises' failed and could not produce a successful draft resolution at the end of day 2.

The third day began with committees being separated and once again the UNSC opened their second agenda which was an open agenda where the delegates came up with a very interesting topic - 'Issues in DPRK' (Democratic People's Republic of Korea).

PAPERS IN ACTION!

On the third day, two working papers were proposed, one by China and Russia, the second one from the USA and the UK in the merged committees of UNODC & IMF. Plenty of discussions were done on both the working papers. Delegates were helped by the Secretary-General and the Chair of the UNSC.

A lot of objections were raised for the first working paper, thus it did not pass. The working paper made by the delegate of USA was then introduced and it passed with the majority of the votes. The delegates of China and the USA then made a draft resolution and were voted on. The results showed a successful resolution, and thus a successful committee!
